

## Preventing School and Mass Shootings – STEP Training for SRLEEA Members

The Community Safety Institute and SRLEEA are launching their Specific Tactics to Enhance the Prevention of Shootings (STEP) training series and certification course.

This series designed to provide LEO's and their agencies with the information and tools necessary to enhance their ability to prevent school and mass shootings and consists of both online webinars and

in-person facilitated trainings. The training is comprised of the following four school/mass shooting courses: 3 Steps to Preventing School Shootings; Preventing Mass Shootings: A 5 Step Guide for LEA's; Mass Shootings: 6 Steps to Survival and Protecting Public Events; 4 Steps to Mitigating Mass Shootings.

### **Session 1 - 3 Steps to Prevent School Shootings webinar (2 hrs.) SRLEEA Member \$99.00**

Developed for small and rural agencies who serve or assist with local school districts this two-hour course focuses on information gathering to prevent shootings and identify, assess and intervene with potential offenders through community engagement, threat assessment, threat management and proactive coordinated response.

LEO's will learn:

- How to engage their community and utilize social media information to uncover and thwart attacks
- Understand the process of threat assessment.
- Utilize tools for threat management and develop a platform for a proactive coordinated response to prevent school shootings.

To register for 3 Steps to Prevent School Shootings on February 28, 2023, at 10:00am click below or paste into your web browser.
